Penguin Loves Mev

A Couple Item

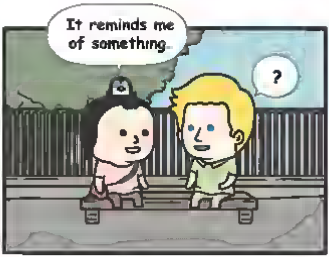
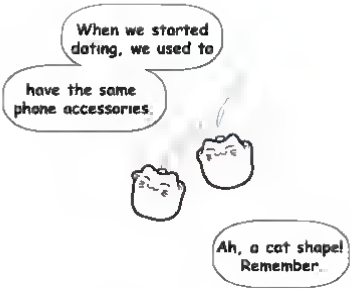
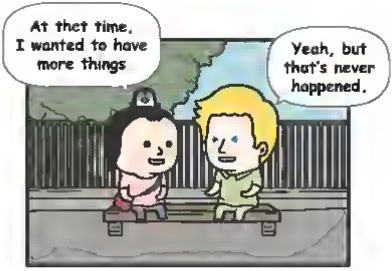
...checking if they have matching items.





Korean couples like having some matching couple items.



However, that was a big cultural difference that Mev didn't want to overcome.

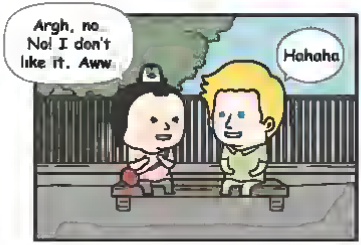
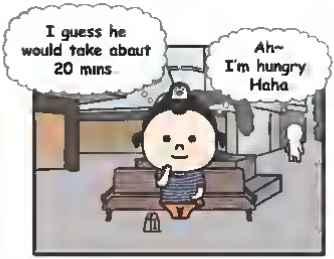
And you can feel your lover though the item when you're not together
So, do you wnat something then?

As I've got used to English culture;



...a couple top, shoes, bags...!
it became embarrassing to me as well.

Then one day...



We had a plan to have dinner together in the town centre.
